

## Resource 1

Look at the resource below, where some children share why they find playgrounds fun.

I find climbing and going high fun, so zip lines, climbing frames, monkey bars are definitely for me.

Amelia

What makes a playground fun for you?  
Have you ever been to a playground that you didn't find fun?

I find any playground fun because I can play with my friends, make up games, use whatever equipment there is and be outside!

Jumaana

Playgrounds that have places to make dens are fun. I enjoy ones that have willow tree dens.

George

As long as there are swings, a slide and a roundabout, I will have fun!

Brodie

I love playgrounds that have proper football goals and lots of space so I can run around.

Echo
